

# Fill in the Gaps

Using the given script, write one scene that features a character that is off screen while the rest of the movie is going on.

For example, Rocky and Adrian have a scene together. Adrian leaves and we follow Rocky for a few scenes. Then we meet up with Adrian again. What did Adrian do in the meantime? Who would she talk to?

This is a chance to write with existing characters. You don't have to do much world building. You're focusing on writing character, but also the craft of formatting action, dialogue, description, phone calls, etc.
